

Noble

Snap-In Insulated Shaft Potentiometers

» FEATURES

1

Noble 9mm, 12mm and 14mm Snap-In Potentiometers for Volume, Tone, Balance in Amplifiers, Mixers and Signal Processors

- ▶ Miniature low profile, light weight design for space saving applications.

2

Noble Film Integration Technology

- ▶ Film Element provides ultra smooth rotation

3

Multiple Electrical and Physical Options Available

- ▶ Can be provided with vertical or horizontal mounting, threaded bushing and mechanical detents. Various shaft lengths available. Large range of resistances and tapers are offered, with center tap and multiple circuit configurations.

4

Shaft color variation & indicator

Various colors are available

e.g. Transparent shaft for LED transmission

e.g. White ink dot for indicator display
